

# Chemistry of Cornflour

## What Do I Need?

1. Cornflour
2. Water
3. Bowl
4. Covering for the table - to keep it clean

## What Do I Do?

1. Add a few handfuls of cornflour to a bowl.
2. Add a little bit of water until you have a paste.
3. Pick it up and roll it into a ball - what happens?
4. Stop rolling it and leave it in the centre of your hand - what happens?
