

# Beastie Drive

Start with the youngest player – roll the dice. You can't start drawing until you roll a 6 and have a body. Take turns around the table.

You can't draw eyes or antennae until you roll a 5 and have a head.

First person to complete the beastie drawing shouts "BEASTIE" and scores a maximum of 14 points (1 point for each of the 14 body parts). Everyone else counts up their score, 1 point for each body part drawn.

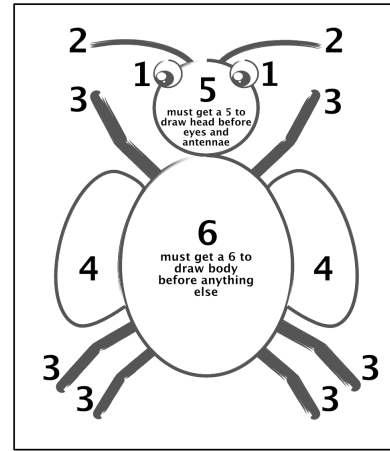

The overall winner is the person with the highest score after all the games.

Be creative! Your beastie needs to have all 14 body parts but you can make your beastie as pretty, or scary, or funny as you like!
