

Travelling to Space

What do I need

Lots of bits and pieces from the recycling box, glue, scissors, lots of imagination
Optional - paint and felt tip pens

What do I do

We would like you to use your imagination to design and build a space ship.

This space ship is going to travel to a new planet in search of alien life.

Once you have made your space ship you need to name it and don't forget you need to **Design a Mission Badge**.

Now it's time to travel to our new planet - what type of material will it be made of?

- Rock
- Sand
- Ice
- or something else.

Tell us all about your new planet.

Now show us who you met on your planet.

We would like you to draw or build us an alien.

Your alien could be in a space ship or just living on the planet - we can't wait to see your aliens.

This is our effort, we feel sure you could do a lot better!
