

Dundee Science Centre

General Risk Statement

Dundee Science Centre (DSC) maintains a strict set of procedures to ensure all equipment and practices are as risk free to be reasonably practicable. All equipment and activities are risk assessed and reviewed on a regular basis, and procedures to cover:

Fire safety and evacuation
First aid
Lost child
Allergies and special requirements

Risk assessments are numerous and therefore not posted as a general rule, but individual assessments are provided for specific activity bookings.

All DSC areas and activities are supervised by trained staff, although supervision of children is the responsibility of parents, carers, or group leaders.

Group visits will receive a safety brief from DSC staff on arrival to assist with supervision within the centre. DSC operates under a public entertainments licence and is audited and insured accordingly. A copy of public liability policy is available on request.

Further information is available on request by telephone on 01382 868601 or email at
